IT IS OUR RESPONSIBILITY TO TAKE ACTION.

ECONOMIC HARTIMES SELF EMPLOYMENT IN THE STREETS OF ZIMBABWE

Figure 1 with unemployment at more than 94% productive citizens of the nation find themselves doing business in the in Zimbabwe. Mugabe's regime has totally reduced ordinary Zimbabwean citizens into street beggars

BULAWAYO

Figure 2 Self employment in the streets of Zimbabwe. The country has suffered a high rate of unemployment. With the unemployment rate hard hitting the country at more than 94% adults ZIMBABWEANS self employ themselves by selling cabbages on the streets. This further fuels the spread of cholera in the country. With this kind of LIVING it is not surprising that cholera continues to be a national disaster.

DESPERATE TIMES waiting for customers in the streets

Figure 3 Woman sells food right in the middle of a self imposed dump site.

In a bid to survive this woman has resorted to selling goods in the streets of Bulawayo. However right behind her there is a dumpsite. The metropolitan city of Bulawayo has been operating without a proper budget and this has resulted in a city wide strike from the city workers. The city has been failing to provide sanitary bins for citizens to throw in litter and this has resulted in the creation of dump sites right at the heart of the city. This also the case with other cities
