

# Plan for buildings, lighting, water and sewage for #1 Science and Technology Battalion, Thabeikkyin

- Gives map reference, R-899485, south of Kyaukkyi village
- Military Intelligence permission on 18 January 2006 to construct forty-eight buildings, and on 2 February 2006 to construct lights, water, sewage and roads, including a six mile road from Hpawt Taw Junction to the factories
- Note: We published in June 2008 that the nuclear battalion was ten kilometers (approximately six miles) from Kyauk Pa Toe. If Hpawt Taw is a more accurate transliteration of Pa Toe, the earlier intelligence is now confirmed.
